

THE DEPARTMENT OF EARLY EDUCATION AND CARE
SUBSIDIZED CHILD CARE
VERIFICATION OF DISABILITY/SPECIAL NEED OF CHILD

The Department of Early Education and Care (EEC) is the Lead Agency in the Commonwealth responsible for administering the Child Care Development Fund (CCDF), which is a federal block grant that provides financial assistance to low-income, working families seeking high quality early education and out of school time care programs in Massachusetts. Federal and state regulations establish maximum household income thresholds and require Parents to participate in an approved service need activity, including work, education or training program.¹ On a limited basis, an exception to the income and service need activity requirements may be granted for a Parent whose child(ren) has a documented disability or special need.

Section 1A of Chapter 15D of the General Laws defines “child with special needs” as “a child who, because of temporary or permanent disabilities arising from intellectual, sensory, emotional, physical, or environmental factors, or other specific learning disabilities, is or would be unable to progress effectively in a regular school program.”

A Parent seeking a child care subsidy must establish at least a part-time service need (employment, education and/or training) of 20 hours or more per week to qualify for subsidized child care. For full-time child care a Parent must confirm a valid service need of 30 or more hours per week. On a case by case basis, Parents who with less than full-time hours of service need may request that EEC approve a full-time subsidy for his/her child based on the child’s documented special need.

The purpose of this form is twofold: (1) to verify the existence of a child’s disability/special need; and (2) to confirm the type of program that would best address and/or improve the disability/special need.
